It'd not for her to worry about their social presence!

Hi,

I have been attempting to verify Invicta. It is nice that they have multiple licenses, all which are valid which is a plus. It is a little odd that they don't have any kind of social media presence on Facebook or even LinkedIn. I also called the person Jorge who is listed as the contact, I explained who I was and what I was I was trying to verify, he told me he was very busy and in the middle of something then hung up on me. Garrett has asked for a redacted invoice, so when that comes through I will see what I am able to verify on it.

All in all, it was rather strange.

Hi Garret,

I spoke to Adam about not having the hard copy of my Utah Lic. For some reason I can't find that one.
What I do have is the license verification attached.
I have my consultant asking the Utah board of pharmacy to send me one. He does not know if they actually issue certificates.
There are three pdf copies of some of the out of state licenses I do have.
